

What happens to my application once I submit it to Alaska Teacher Placement?

Interested in working in “The Big 5” School Districts?

Anchorage Public Schools, Kenai-Peninsula Borough School District, Mat-Su Borough School District, Fairbanks North Star Borough School District, and Juneau School District require their own application. It's easy to apply!

Step 1:

Visit the School District website

Step 2:

Begin a new application

Step 3:

Import your ATP application and complete any unique pages

Applicant FAQs	
<p>How do the “Big 5” databases work with the ATP system?</p> <p>The “Big 5” school districts each require their own online application. Since these districts use the same system that ATP uses (AppliTrack) your application information can be imported into any of their online application systems once you begin a new online application with a “Big 5” school district.</p>	<p>Are you automatically in all databases (Big 5 and ATP)?</p> <p>No. If you submit an application to ATP, all school districts EXCEPT the “Big 5” will see your application. To be viewed by the “Big 5”, you will need to begin a new application with each of those districts and import your application from ATP.</p>
<p>How do I import my application into the “Big 5”?</p> <p>Once you begin an application for the “Big 5”, AppliTrack will immediately ask you if you'd like to import your application from ATP as soon as you enter your e-mail address and password into the “Big 5” district's application.</p>	<p>Can I apply to a “Big 5” district from the ATP Job Bank?</p> <p>Yes! When you hit the Apply button on any “Big 5” job posting, you are taken to their online application and may import your application from ATP upon the start of a new application.</p>
